STOPS PAIN

Athens, Tenn., Jan. 27, 1901.
Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. During the past month I have been taking Wine of Cardui and Thedford's Black-Draught, and I passed the monthly period without pain for the first time in years. NANNIE DAVIS.

What is life worth to a woman suffering like Nannie Davis suffered? Yet there are women in thousands of homes to-day who are bearing those terrible menstrual pains in silence. If you are one of these we want to say that this same

WINE OF CARDUI

will bring you permanent relief. Console yourself with the knowledge that 1,000,000 women have been completely cured by Wine of Cardui. These women suffered from leucorrhoea, irregular menses, headache, backache, and bearing down pains. Wine of Cardui will stop all these aches and pains for you. Purchase a $1.00 bottle of Wine of Cardui to-day and take it in the privacy of your home.

Insects and X Rays.

A writer in The American X Ray Journal tells of some unusual experiments upon insects with Roentgen rays. A box was made, half of wood and half of sheet lead. In the wooden half a number of larvæ of flies, bees, beetles and other insects were placed, and the box was then put in the field of the X rays. The insect colony at once became greatly excited, and after crawling to and fro finally emigrated to a worm to the leaden half of the box, where the rays could not penetrate. The experiment was repeated many times and always with the same result.

A similar experiment was tried with the blind larvæ of a certain species of beetle. A number of them were placed in an open cigar box, which also contained a metal box with an opening. No sooner were the rays turned on than the insects showed signs of distress. Their uneasiness increased, and in a little while they all sought refuge in the metal box. As the larvæ in the second experiment were entirely sightless their perception of the rays must take place through the nerves of the skin.

Getting a Day Off.

A certain government officer was noted for being a hard taskmaster to those who were under him, the servants in his own establishment being no exception. His valet was expected to be on duty 365 full days in the year.

Being detailed to accompany a scientific expedition on an extended cruise, the officer unbent a little in communicating the news to his personal attendant.

"Well, James," he said, "how would you like to go with me around the world?"

"Do we go from east to west, sir?" asked the valet.

"Yes."

"We lose a day in going that way, don't we?"

"We do."

"Well, sir, I'd like it first rate. It would give me one day off."

His master was so pleased with the aptness of the retort that he gave him a week off to prepare for the trip.—Youth's Companion.

The American Soldier.

That West Point is the best military school in the world is conceded by all impartial critics. Its methods transform the average raw youth into the honorable, refined and highly educated officer of our army. He is pre-eminently taught the "habit of command," which, as a rule, he uses without any of the arrogance shown by officers of some of the armies of Europe, notably that of Germany. He is made to realize that he commands men who are as sensitive as they are brave and who appreciate and respect a character combining generosity, kindness, firmness and, above all else, physical and moral courage.

These traits of character are carefully cultivated at West Point, with a result that, besides having the best enlisted personnel, we have in the United States army, without question or doubt, the best trained and most capable gentlemen as officers.—Army and Navy Journal.

An Arctic Bill of Fare.

The Eskimos at home in their native frozen wilds do not believe in cooking. Their meat, be it seal, fish, venison, trout, salmon, whale blubber or codfish, they devour in its natural raw state and with the same gusto with which the average small boy tackles a watermelon. As for bread and vegetables, they have none. They set their seal oil lamps going, suspend a soapstone dish filled with snow over it, and with the water thus obtained they mix an equal quantity of molasses procured from the Hudson Bay company. That they drink and are happy. That is the sum total of an arctic cuisine.

A Flame Combination.

If a small quantity of chlorate of potash be powdered and mixed with an equal quantity of powdered sugar, a candle may be lighted by means of the mixture without matches.

Place a little of it in the depression around the wick of a candle that has been previously used and then touch the mixture with a glass rod the end of which has been dipped in oil of vitriol. It will burst into flame, lighting the candle.

An Elaborate Bank Note.

The most elaborate bank note is the hundred ruble note of Russia, of the time of the Empress Catherine, which is a gorgeous piece of paper about 4 inches by 10. The note is barred from top to bottom with all the colors of the rainbow blended as when thrown through a prism. In the center in bold relief is a large, finely executed vignette of the Empress Catherine I in black.—London Tit-Bits.

Testimony of the Nose.

An eminent physician now proclaims that the ancient and general opinion that the nose is an index to character is a fallacy. And it may be proclaimed with fully as much confidence that there is nothing which any eminent physician knows to be so that other eminent physicians do not know to be "ain't so."—Louisville Courier-Journal.

Declined the Honor.

"Perkins," said Colonel Hankthunder, "you have named a new brand of whisky after me, have you not, suh?"

"I have taken that liberty, colonel," answered the distiller.

"Well, suh," rejoined the colonel, "I shall have to ask you to call it something else. I have tried it, suh."—Chicago Tribune.

The growth of grass that comes in a long, mild, moderately rainy autumn is said to be far more nutritious for cattle than the spring grass. It is richer.

A Wonderful Cure.

Some charitable women were recently inspecting the wards of a Baltimore hospital when they chanced to see a poor fellow, the expression of whose face melted their hearts.

"My poor man," said one of the women sympathetically, "you seem to suffer agonies."

"Sure, mum," he answered, "I have the rheumatism."

"Is there anything I could do for you?" asked the kind hearted woman.

"We-l-l," slowly muttered the patient, "I would like to have my face shaved, but I haven't the coin."

The women held a hasty consultation, and one of them finally drew a crisp $2 bill from her purse. Turning to the patient, she said, "There, take this, and may you soon get better."

Her wish was evidently gratified, for the next day when she called at the hospital to see the good effects of a shave on the rheumatic patient she was told that shortly after she had left on the previous day he had shown such marked improvement that he said he was able to get up and hurriedly left the hospital before a barber had been summoned. It was evident that the $2 bill had wrought the wonder.—Baltimore Sun.

The Discovery of Electricity.

Children rub together bits of amber picked up from the ground and find that when rubbed these small pieces of waxlike substance are excited to attract particles of light substances, like straws and feathers. Could anything be more elementary or seemingly further removed from the mighty mechanical developments of the electrical powers which now surround us? Yet that simple frictional play was the starting point of all we now possess electrically. It lay by as a child's sport for ages—lay by for Sir Isaac Newton himself to look at, removed only to a box with a glass lid containing paper figures, which would move when the glass surface was excited by friction. A little later, and the flat glass surface became a tube, a globe, a globe revolving on a frame, a machine, an electrical battery, and so steadily onward until, each step marked by a gentle advancement upon advancement, lightning and thunder themselves were the inventions of man as well as of nature.

The Moors and Their Morals.

In appearance the Moors are a very fine race. For many generations their mothers have been chosen for their beauty. An active life in the saddle has developed them physically and a splendid appearance is the result. In addition, they have manners of unequaled suavity and polish, the result of early years spent in the harem. They are so habituated to think well of themselves as followers of the true prophet that an uneasy conscience never troubles them.

A man may be an utter scoundrel, cruel and licentious, and yet be regarded as a saint if he is descended from the prophet and conforms to the outward ceremonial of Islam. His brow is frank and unclouded, his smile is even benevolent, and yet it would be impossible to describe the details of his life. Such are the Moors—an interesting tableau vivant of many a chapter in the book of Judges, or Samuel or the Kings.—African Review.

Coffee Drinking Denounced.

As early as 1663 coffee was satirized in England, and on every hand the bitterest invectives were applied to it by the press and pulpit. In one instance a preacher hurled anathemas at the heads of those who used as a beverage "a sirup of soot and essence of old shoes!" Probably he had good grounds for this statement, having sampled some boiled coffee. Another divine denominated it "a poison which God made black that it might bear the devil's color!" The women also took up the cudgels against it.

Folding Linen In Holland.

Folding linen is an accomplishment in which each one of the women in Holland is expected to be proficient before she becomes mistress of a home. In Holland especially the folding of linen requires considerable skill and training. Much of their fabric is of the finest texture and quality, and they fashion the various pieces in ironing into birds, animals, flowers and all manner of artistic shapes. Their linen closets are often shown to visitors with the same pride that china closets are shown elsewhere.

Never Wanted to Be at Home.

"Oh, you men, you men! When you used to call on me before we were married, it was all you could do to tear yourself from me at midnight. Now you are never so happy as when you are away from home."

Mr. Griffin—But you seem to forget, Fannie, that I was away from home in those courting days when it was so hard to tear myself away.—Boston Transcript.

A Malaprop.

Miss Windstraw—What a wheezy, pinched little thing that baby of Mrs. Puffproud's is, to be sure!

Mrs. Blazer (contemptuously)—Yes, and to hear her talk you'd thing she had a progeny.—Leslie's Weekly.

Expensive Tastes Satisfied.

Nell—I didn't think Cholly would ever make up his mind to get married. He had such expensive tastes.

Belle—That accounts for it. He says his wife is the dearest girl in the world.—Philadelphia Record.

Tough World.

"I tell you," said the curbstone moralist, "this is a tough world."

"That's so," the busy man took time to reply, "and very few of us will get out of it alive."—Philadelphia Telegraph.

His Cork Legs.

"Along about 1890," said a veteran physician, "I amputated the legs of a man who was blown up in a boiler explosion and helped him procure a couple of cork substitutes. As soon as he was able to be about he went fishing, fell in and was rescued just in the nick of time. He was laid up for several weeks and then sued me for damages."

"But why?"

"The cork legs stood him on his head in the water."—Detroit Free Press.

A Case of Overcrowding.

"I don't see why I keep on getting so much fatter. I only eat two meals a day."

"I know, my love. But you shouldn't insist upon crowding your breakfast and luncheon into one meal, and your dinner and a late supper into the other."—Cleveland Plain Dealer.

Easy or Impossible.

A remark imputed to Victor Hugo in reply to a young man who asked him if it was difficult to write poetry is both witty and true, but it is more witty than true.

"My dear sir," the poet is said to have replied, "it is either easy or impossible!"

A Chinese Trick of War.

A curious artifice of war was adopted by a Chinese junk when attacked by a man-of-war. The crew threw cocoanuts overboard into the sea and then jumped in among them. Nearly all escaped, for it was impossible to tell which were heads and which were nuts.

A Modern Instance.

"Hear about that American young woman paying $1,000,000 for a cigarette holder?"

"Get out!"

"Fact. I believe it also had a title or something."—Cincinnati Enquirer.

Deathbed Flattery.

Almost every dying person is liable to be allured by the solemn attitude of the company and the restrained or flowing torrents of tears and emotions to an alternating conscious and unconscious comedy of conceitedness. The seriousness with which every dying person is treated has undoubtedly been the very finest enjoyment of his life to many a poor despised devil and a sort of indemnification and partial payment for much privation.—Works of Nietzsche.

Saluting With the Hat.

Before the invention of wigs the hat was rarely removed except to salute others, especially royal personages. It was worn at table when ladies or persons of rank were present. Except when saluting royalty it was the custom merely to raise the hand to the hat somewhat after the manner of a military salute. When it became the mode to wear a profusion of false hair, the hat was less needed as a protection for the head and was carried under the arm.

A Tart Retort.

The infant of a household was in its cradle. The head of the house was at home, peevish and fault finding. At length he became unendurable. "You have done nothing but make mistakes tonight," he growled.

"Yes," she answered meekly; "I began by putting the wrong baby to bed."—Chicago Journal.

Why Housekeepers Lose Appetite.

The woman who orders a dinner has eaten it before it reaches the table. If she cooks it, too, then she has eaten it twice. Is it any wonder she has no appetite for a third course of it?—Harper's Bazar.

Silken raiment has a standing among the oldest garments in the world. Robes of that material were worn by men and women alike 2,500 years before the birth of Christ.

The Daily Call and Index-Tribune $7 per year.

"FRUIT OF THE LOOM."

Men and women of taste and judgment go into ecstacies over the wonderful patterns, textures and colors which are "the fruit of the loom." But there is one fruit of the loom they rarely consider, and that is the frail and faded woman, old before her time, because necessity compels her to work under conditions, which send her more favored sister to bed and the doctor's care.

The diseases which weaken and torment women, may in almost all cases be cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

"I had female trouble for eight years," writes Mrs. L. J. Dennis, of 828 East College Street, Jacksonville, Ills. "Words cannot express what I suffered. *I sought relief among the medical profession and found none.* Friends urged me to try Dr. Pierce's Favorite Prescription. When I commenced taking this medicine I weighed ninety-five pounds. Now I weigh one hundred and fifty-six pounds—more than I ever weighed before. I was so bad I would lie from day to day and long for death to come and relieve my suffering. I had internal inflammation, a disagreeable drain, brearing-down pain, and such distress every month, but now I never have a pain—do all my own work and am a strong and healthy woman."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full-size bottle."

DR. TAFT BROS. MEDICINE CO.
Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic Asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After taking one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully, O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. February 5, 1901.

THE EXCLUSION ACT CONVENTION.

THE Chinese Exclusion Convention which convened Thursday in San Francisco is composed of representative men from every section of the State from San Diego to Siskiyou. Never in the history of the metropolis of the Pacific have so many leading men congregated in convention there.

The reason for this lies in the fact that every man—be he capitalist or laborer, employer or employee—realizes the beneficent provisions of the Geary Exclusion Act, which for ten years has turned back the Asiatic hordes that were advancing on our fair State like an army of rodents and threatening the very existence of the Caucasian race on these shores.

The Exclusion Act expires by limitation next May, and is it any wonder that the people of California have risen up to a man in convention assembled and memoralized Congress to extend the Exclusion Act which was drawn up and battled for by ex-Congressman T. J. Geary, who was fittingly elected by acclamation to preside over the deliberations of as earnest a body of men as ever came together?

Thanksgiving.

Governor Gage has issued the following proclamation:

Executive Department, State of California: Pursuant to the proclamation of the President of the United States of America, given at the city of Washington, D. C., November 2, 1901, I, Henry T. Gage, as Governor of the State of California, do hereby declare Thursday, the 28th day of November, A. D., 1901, a public holiday for thanksgiving and prayer to the divine and beneficent ruler upon whose will the safety of our State and the welfare of our people alike depend. In witness whereof I have hereunto set my hand and caused the great seal of the State to be hereunto affixed, at the city of Sacramento, this 20th day of November, A. D., 1901.

HENRY T. GAGE,
Governor of California.

Attest:
C. F. Curry, Secretary of State.

Otto Olsen, manager of the Muser farm, who has been hovering between life and death for several weeks, is now under the care of Drs. Rich and Hennessey. He is suffering from heart trouble and his case is a desperate one. At latest accounts there was a marked change for the better in his condition.

Getting Thin

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil.

There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work--you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other.
If you have not tried it, send for free sample, its agreeable taste will surprise you.

THE OBSERVER.

When, if ever, should a woman support her husband is a much discussed question. I say never, under present social conditions, unless the husband is afflicted with some infirmity. Neither should support the other. Both should support the family. Husband and wife should lend mutual aid toward keeping up the household, but under ordinary circumstances it is the man's duty to be the wage earner. It is man's duty because he is better qualified physically and because tradition has placed him at an advantage in being able to command better wages.

If the woman keeps the house and family in order and practices economy she is doing her part toward the livelihood. Men often claim that the woman in the home is a consumer and not a producer. Show me the woman who sews and bakes and then show me the political economist who will deny that she is a producer. Some economists would even place the wife who satisfies the musical demand of her lord and master in the category of producers—though I hardly would go this far. The average housewife, however, is without a doubt a producer.

A woman who goes outside of her home to labor, although she may be doing the same work she would be doing in her own home, is counted a producer because she brings in a dollar a day. This is the market value of her labor. She cannot command more for her services simply because she is a woman—a parasitic social being. If the woman of to-day has to support her husband by bartering her labor she has to work at much disadvantage. In the future it may be different, provided wives are expected to support husbands and employers pay accordingly.

If a woman is skilled along any particular line or in any profession she may even to-day enter the lists, and I say she should, provided she has no family to care for. Even if her husband is also a wage-earner she might just as well help to better the world. Having the power stored up in her creative brain it is more to her credit to exercise her ability than to sit idly by and stifle her possibilities. Just as soon would I watch a well filled engine burn itself out without utilizing its all possible energy. The woman who must labor manually I pity when her work must be measured by dollars and cents.

The reputation of Sybl Sanderson as a star in the musical firmament is being vigorously upheld by one of the papers of her native city, Sacramento. For some reason or another San Francisco does not seem to have appreciated the lustre of this "bright particular star" as did European cities. Sacramento is consequently wrathy. She taboos San Francisco's counter criticism and considers it presumptuous on the part of a wild and woolly western town to set up its judgment on musical matters already stamped with the approval of European art.

Sacramento would not deign to do such a thing, besides Sybl is one of the capital's own girls and it would be unkind not to indulge her. Despite the kindly spirit of her lares, unbiased critics say that Miss Sanderson cannot sing now and they refuse to imagine their ears ravished by echoes of foreign criticism. They go to see the American prima donna out of courtesy and curiosity and they are rarely disappointed, for Sybl appeals to the eye if not to the ear and is altogether a charming chic Parisian-American girl.

Superior Court Notes.

In Department One of the Superior Court, Judge Dougherty presiding, the following business was transacted Monday:

The final account of the estate of Mary Eastman was settled and distribution was ordered.

The distribution of the estate of Charles R. Potter was continued to November 25th, and five days were allowed to plead.

Nellie L. Prindle was appointed administratrix on the estate of Lucena B. Woodward in a bond of $500.

An order was made assigning the estate of Gustaf Hegmann to the widow.

Church Lights and Social Leaders.

Every community, however small, has its group of energetic women, who lead and light the way in every local enterprise. If it is charity, a bazaar, a church fair, or any other benevolent undertaking, they work day and night to make it a success. They are not the women who neglect their homes to serve the public. They simply do double service. Many a husband knows what it is to bring his wife home from a fair or bazaar near the hour of midnight and see her drop, in sheer exhaustion, into the first chair she comes to. While the lights were bright and the talk and laughter were all about

her, she didn't realize her own weariness. But once at home, exhaustion overcame her. If a woman were thoroughly robust, without ache or pain, she could not keep this work up without undermining her health. What shall be said then of those women, who are not strong, who suffer from headache, backache, bearing-down pains, and other consequences of a diseased condition of the womanly organism? And these women are in the great majority. There are few women who are free from diseases peculiar to their sex.

BURNING THE CANDLE AT BOTH ENDS.

That expressive saying not only suggests the most rapid form of waste but also the most foolish. When a woman overtaxes her strength in any cause, whether in the enjoyment of social pleasures, or in the service of church or charity, she is rapidly hastening to the end of her public activity.

The proof of this is found right at home. Young matrons who are not dancing any more, church workers who are no more active; these have not stepped aside because of loss of interest but because of lack of strength.

There is not a weak woman who would not like to be made strong again. There is not a sick woman who would not like to be made well. And there is not the least reason, in ninety-eight cases out of every hundred, why women should continue to be weak and sick. The first step to the re-establishment of the general health is to establish the local womanly health.

"I feel that it is only my duty to send you a statement of my case," writes Mrs. Mary E. Wilcox, of Emo (Rainy River), Algoma Co., Ont. "I suffered untold misery for many years with uterine trouble, until I commenced taking Dr. Pierce's good medicine and used the local treatment as advised. I took two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' I also sent for one box of your 'Antiseptic and Healing Suppositories.' I have only used two and that was two months ago. Have not had to use any since, but I shall keep them in the house. I would advise every woman who suffers from ulceration of the uterus and piles to use Dr. Pierce's Golden Medical Discovery. It is the best medicine in the world. Also write to Dr. Pierce for his advice. I have felt better in the past seven months than I have for years. Every month I used to have to go to bed and have hot poultices and take laudanum to ease the pain. I don't go to bed now, nor do I take laudanum. Every spring I used to be troubled with piles, but I did not have any trouble of that kind this spring. I keep Dr. Pierce's Compound Extract of Smart-Weed in the house. It is a wonderful medicine."

THE WAY OF ESCAPE

from the diseases which afflict women, is marked by the footsteps of hundreds of thousands of women who have been raised to strength from weakness and from sickness to health, by the use of Dr. Pierce's Favorite Prescription. It establishes perfect regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It cures backache, headache, and the other painful consequence of womanly disease. It tranquilizes the nerves, encourages the appetite, and induces refreshing sleep.

"I feel it my duty to send you this testimony," writes Mrs. Tillie Linney, of Gravel Switch, Marion Co., Ky. "I had been a sufferer from uterine trouble for twelve years, having doctored with the most skillful physicians but finding only temporary relief from medicines prescribed by them. I was advised by a friend to take 'Favorite Prescription,' which I did, and after taking six bottles I find that it has effected a complete cure."

"My niece was troubled with female weakness for about four years before I asked for your advice," writes Mr. J. W. McGregor, of 62d Street and Princeton Ave., Chicago, Ills. "You advised her to take Dr. Pierce's Favorite Prescription which she did faithfully for nine months, and now we must acknowledge to you that she is a *well woman*. We cannot thank you enough."

YOU CAN BE CURED

by "Favorite Prescription" if your disease is curable by medicine; and the facts show that only two women in every hundred who have given "Favorite Prescription" a fair and faithful trial have failed of a complete cure. Women who have suffered for years and have had the advantages of the most skillful medical treatment, have at last tried "Favorite Prescription" and been cured. Women who had been pronounced incurable, and given up to life-long suffering, have been perfectly and permantly cured by the use of Dr. Pierce's Favorite Prescription.

Sick and ailing women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held in sacred secrecy and the written confidences of women are guarded by the same strict professional privacy observed by Dr. Pierce in verbal consultation with sick women at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

Accept no substitute for "Favorite Prescription" though the dealer says that it is "just as good." If he told the whole truth he'd say the substitute was better—not better for you but *better for him*, because of the little more profit paid by the sale of less meritorious medicines.

ARE YOU 21?

Then at the expense of one-cent for each year of your life you can pay the expense of mailing a *free* copy of Dr. Pierce's Common Sense Medical Adviser, in paper covers. This great medical work contains more than a thousand large pages and over 700 illustrations, and is sent absolutely *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

HE STOLE BRANDY.

G. A. Wilpret Fined Twenty-Five Dollars,

G. A. Wilpret, until recently, very recently, an employee on the Spreckels ranch, is very fond of his "toddy," and thereby hangs a tale. A short time ago the cellar on the place was entered and a twenty-gallon barrel of cherry brandy stolen. Wilpret was suspected of the theft and a watch was set upon him and he was caught red handed filling a jug from the cask of stolen brandy which he had *cached* in some underbrush a short distance from the cellar. This was on Wednesday last and F. A. Taylor, the foreman of the ranch, came into town and swore out a warrant in Judge Small's court for Wilpret's arrest on a charge of petty larceny. The accused was placed under arrest and brought before his Honor to face the charge. Realizing that the evidence was dead against him the accused plead guilty to the charge and a fine of $25 was imposed upon him. The fine was paid and Wilpret is now on the turf hunting a new job.

Wilpet is well-known in the upper part of the valley as a "shootah," as the Kentucky Colonel would put it. A couple of years ago he shot and dangerously wounded the foreman of Dr. O'Donnell's Glen Ellen ranch. He stood his trial and was acquitted by a jury, as it was clearly proven by the testimony of the witnesses for the prosecution even that he shot the man in self-defense. Wilpret does not belong to the criminal class but at times has a weakness for liquor.

The Y. M. I. Thanksgiving Eve Ball.

Thanksgiving will be observed in this place with the traditional turkey dinner and a grand ball on Thanksgiving eve, which will be given by Sonoma Valley Council, No. 45, Young Mens' Institute. For fifteen consecutive years the Y. M. I. has heralded in Thanksgiving day with a social gathering in Union Hall. Here all the party-going people of the valley have been wont to meet and enjoy themselves in the mazy dance until the wee sma' hours of Thanksgiving morn. One of the attractions of these annual gatherings is Parks' Orchestra of Santa Rosa, by far the best and most expensive dance music to be engaged in this county. The attendance next Wednesday evening bids fair to be the largest that has ever participated in these annual reunions of our party-loving people.

A Sonoma Girl in Hawaii

The Maui *News*, published in the Hawaiian Islands, recently gave an account of an enjoyable "At Home" given by Mr. and Mrs. W. G. Ogg at their large plantation near Wailuku. Mrs. Ogg was formerly Miss Florence Campbell of this place and on the occasion above mentioned she entertained an old Sonoma girl, Miss Ella Ewell, now Mrs. A. J. Lyon of Berkeley, who with her husband, has been visiting in the Islands several months. The "At Home" was an altogether delightful affair, and as the Oggs have a reputation for their royal entertainment a large number of guests came to meet their friends from California. There were artistic decorations, dainty refreshments and sweet Hawaiian music to add to the pleasure of those invited. Mrs. Ogg is the eldest daughter of B. F. Campbell of this place.

The Rainfall

Local U. S. Signal Service Officer Robt. Hall reports the rainfall last Wednesday and Thursday 1 04 inches and for the month 3.05 inches. The total precipitation for the season has been 4.97 inches as against 5.49 inches for a corresponding period last year. The season so far has been peculiarly favorable to the stock-raising and dairying interests and the valley and surrounding hills are rapidly putting on a carpet of green. The past month has been a grass-growing one and no mistake.

Hoodlumism.

EDITOR INDEX-TRIBUNE:

The festive gang who would convert this peaceful burg into a wild and woolly town, wound up a night's carousal Sunday by firing their gun's off at three o'clock in the morning. Every man, woman and child in the town were startled from their peaceful slumbers by the fusilade. This rank ruffianism has aroused our people and they will have no more of it. The perpetrators of Sunday night's rascality are known and a repetition of the offense will lead to their arrest and prosecution by an outraged community.

BOARD OF HEALTH.

City Trustees Appoint Dr. A. M. Thomson, L. H. Green and R. G. Shoults.

At a special meeting of the City Trustees, held last Tuesday evening, at which a full Board was in attendance, President Duhring handed in his appointments of members of the Board of Health in the following communication:

To the Honorable Board of Trustees of Sonoma City—Gentlemen: I have the honor to inform you that I have, in accordance with your request, appointed the following-named gentlemen to compose the Board of Health of Sonoma City: Dr. A. M. Thomson, R. G. Shoults and L. H. Green, and they have signified to me their willingness to serve on such Board and to undertake the energetic performance of their duties. F. T. DUHRING,

President Board City Trustees.

The appointments were then ratified in the following resolution which was passed unanimously:

Resolved, That the appointment of Dr. A. M. Thomson, R. G. Shoults and L. H. Green as members of the Board of Health of the City of Sonoma be and the same is hereby ratified and confirmed, and the Clerk is hereby instructed to notify the gentlemen herein named of their appointment and to request them to meet in the council chamber on Friday evening, November 22d, for the purpose of organizing.

The appointment of a Health Board for this place ought to have been made by the City Trustees years ago but for some reason or another the sanitary ordinance of the city which required, among other things, the appointment of such a Board, had been entirely ignored by the Trustees until the Woman's Club took the matter in hand and presented a big petition to the Trustees demanding the enforcement of its provisions.

FIRE

Acetylene Gas Plant Destroyed

On Tuesday evening last between six and seven o'clock the fire bell aroused the entire town. Those who rushed out doors were startled by seeing the heavens in the eastern part of town illuminated with a lurid glare. The flames came from an acetylene gas tank house on Julius Fochetti's private residence grounds. The tank house and generator were soon consumed. About $100 will cover the loss.

The tank house was remotely located from the other buildings on the place and there was nothing for the flames to feed upon after they had licked that up with its contents.

The fire was caused by a leak in the gas tank, the escaping gas from which was ignited by a lighted candle. Mr. Fochetti entered the tank house with candle in hand and had no sooner thrust his head into the door than the interior of the small structure was enveloped in flames. He sprang back instantly but not before he was blistered about one of his legs by the flames. He had a very narrow escape from being burned to death. A new generator has been ordered from New Orleans.

THE WOMAN'S CLUB.

The Membership is 83 and Increasing Right Along.

The Woman's Club of Sonoma Valley met Saturday. The meeting was of a social nature and one of the features was a paper "On the Objects of Woman's Clubs" by Mrs. F. Duhring. Mrs. D. handled her subject well and wrote in so happy a vein that none present could but be enlightened and appreciative. There are now eighty-three names on the membership roll which is being added to at every meeting.

New Director for the Home at Eldridge.

C. Walter Gould has been appointed a director of the California Home by Governor Gage, *vice* R. A. Poppe of this place, term expired. Mr. Poppe has been a faithful and conscientious member of the Board for several years and his outgoing deprives the Board of Directors of its only local representative. Under Governor Budd's administration J. P. Overton represented Sonoma county as a director.

MAYDOLE'S HAMMER.

(Benson's Plaster is Pain's Master.)

When Maydole was told that he made "a pretty good hammer," he said, "No, I don't make a 'pretty good hammer,' I make the best hammer that ever *was* made."

Every carpenter who saw a Maydole hammer wanted one. It was of the best material, perfectly balanced, and the head never flew off. Hammers were divided into two classes—1st, Maydole's; 2d, all the rest.

Plasters are separated by the same line of cleavage; 1st, Benson's Porous Plaster; 2d, all the rest. When, for rheumatic pain, a cold, a cough, kidney trouble or any other disease or ailment that may be treated externally, you ask for a plaster, any honest, reputable druggist will give you a Benson's. He *knows* it is incomparably the best, and he assumes that you know it too. As the name of Maydole stood for hammers the name of Benson stands for plasters—the "real thing." All the medicinal potencies that are valuable in a plaster are in Benson's. Capsicum, Strengthening and Belladonna plasters are out of date.

An army of physicians and druggists, and millions of the people, have written of Benson's Plasters as a remedy to be trusted.

Benson's Plasters have fifty-five *highest awards*. Accept no substitute.

For sale by all druggists, or we will prepay postage on any number ordered in the United States, on receipt of 25c. each.

Plans for its Improvement Adopted by the City Trustees.

The City Trustees were waited upon Tuesday evening by Mrs. Bates, Mrs. Granice and Mrs. Quartaroli, representing the Plaza Committee of the Sonoma Valley Woman's Club.

The ladies submitted a plan for the improvement of the Plaza, which was approved by the Trustees and a resolution was unanimously passed that the members of the Woman's Club be allowed to improve and beautify the same in accordance with the plan submitted under the supervision of the Plaza Committee of the City Trustees, Messrs. Bulotti and Ciucci.

The plan submitted by the ladies provides for broad walks, grass plats, flower beds, etc.

Water for bringing the eight-acre Plaza into the highest state of perfection has been generously donated by Messrs. Aguillon, Weyl and Schocken, all of whom have fine flowing artesian wells near by.

A UNION OF WEALTH AND BEAUTY.

The Anderson - Cornelius Wedding Sunday.

Miss Matilda Cornelius, the charming and accomplished daughter of Mr. and Mrs. George H. H. Cornelius, was married to C. F. Anderson, a wealthy mining man, last Sunday. The wedding was solemnized by the Rev. Kirkland at the home of the bride. Many friends of the groom from San Francisco were in attendance and intimate friends of the Cornelius family were also present.

The ceremony was performed in the artistic little parlor which had been transformed into a perfection of floral beauty by the addition of trailing smilax and pink and white rosebuds. The bride had no attendants but the groom had for his best man C. Anderson, the millionaire Klondiker.

The bride's dress was a modish white organdie and she carried white carnations.

After the ceremony congratulations were showered on the happy young couple, and then the party adjourned to the dining room where an elegant wedding breakfast was served. The decorations here were ferns and holly berries.

The sumptuous feast over and toasts and speech-making at an end, Mr. and Mrs. Anderson were driven to Schellville, where they took a south-bound train amid showers of the inevitable rice and old shoes.

The bride's going-away gown was a handsome gray cloth suit, and she looked as pretty as the prettiest bride of the season as she boarded the train amid adieus to her relatives and friends.

The presents received at this wedding were beautiful and costly. The groom's gift to his bride was an elegant diamond broach.

Mr. and Mrs. Anderson contemplate residing in San Francisco, although Mr. Anderson owns the well-known Heller vineyards in this valley.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Mrs. J. A. Poppe went to Glen Ellen Thursday to be present at the birthday anniversary of her son Charles J. Poppe, the Glen Ellen merchant.

Mrs. J. P. Weems has returned from San Francisco where she went to be present with Mrs. Lulu de Emparan during the operation upon Raoul Emparan in Lane's Hospital. The veriform appendix was successfully removed and young Emparan is now out of danger.

The Doll Show for the benefit of the Plaza promises to be an attractive affair. There will be two matinee performances in Union Hall, December 13th and 14th, and an evening performance December 14th. Many beautiful dolls will be displayed and attractive programs are being arranged.

Mr. and Mrs. Pedrio Pinelli left for their home in Mina-Colorado, Mexico, last Tuesday, after a sojourn of several weeks in this place as the guests of Mr. and Mrs. A. Pinelli. It is the intention of Mr. Pinelli, who is a very wealthy mine owner in our sister Republic, to again visit Sonoma in May. During their brief visit Mr. and Mrs. Pinelli made many friends here.

To the Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, RALPH S. MEYERS, 64 Thirty-seventh st., Wheeling, W. Va. For sale by F. Duhring. *

Transmission of Sound.

A striking example of the magical effects capable of being produced by any one conversant with the laws of sound was shown by the late Professor Tyndall in one of his lectures. He placed on the floor of the room an ordinary guitar. No one was near, and yet some unseen hand drew sweet music from it so that all could hear. The guitar was replaced by a harp, with the same result. A wooden tray was then substituted, and even from that issued mysterious harmonies.

The marvelous effect was simply due to the sound conducting quality of wood. In a room beneath and separated by two floors was a piano, and connecting the rooms was a tin tube containing a steel rod, the end of which emerged from the floor. The rod was clasped by rubber bands so as to close the tube, and the lower end of the rod then rested on the sound board of the piano. As the guitar rested upon the upper end of the rod the sounds were reproduced from the piano, and when the sound board of the harp was placed on the rod it seemed as though the actual notes of the harp were heard, the notes of the piano being so like those of the harp.

As the professor said, "An uneducated person might well believe that witchcraft was used in the production of this music."—Chambers' Journal.

A Far Look.

Three visitors traveling in the Isle of Man thought they would visit Snaefell, the king of Manx mountains. When walking up toward the mountian, they espied an old shepherd coming toward them. They thought they would take a rise out of him, so one accosted him, saying:

"They tell me, old man, you can see England, Scotland, Ireland and even as far as America from the top of this mountain."

"Oh, yes," said the old man. "If you will come with me, I will show you much further than America."

So, chuckling to themselves, they decided to follow him. After trudging for about half an hour up the mountain side in a boiling sun they began to feel rather fagged and kept asking the shepherd how much further they had to go.

He kept urging them on a little further until at last the three visitors lay down on the grass and said they would go no further for any sight.

"Now," said the old man, "if you will sit here long enough you will see the moon."

The Tanning Process.

The slowness of the process of tanning is largely due to the difficulty with which the tannin penetrates into the hide. As the penetration progresses the outer part of the hide becomes converted into leather and is thereby made impervious; consequently the rate of penetration decreases. Months of soaking in the tan pit are therefore necessary for thick hides. Many attempts have been made to hasten this absorption of tannin by hide. The methods used include circulating the tan liquor so that fresh portions are continually presented to the hide, forcing the liquid through the hide by pressure and using strong aqueous extracts of tanning materials.

It has been sought to attain the same object by passing a current of electricity through the vat in which the hides are suspended. One such process has been found to shorten the time of tanning to a quarter of that necessary when no current is used, and the leather is said to be unexceptionable.—Electrical Review.

The Eskimos.

The old tradition that the Eskimos are a people of small stature is without foundation. On the contrary, in Labrador, Baffin Land and all around Hudson bay the height of the men is probably above rather than below the average of the human race; but, as a rule, the women, although very strong, are considerably shorter than the men. They are brave, industrious, provident and communicative, in all of which characteristics they contrast with the northern tribe of Indians.

A Wonderful Echo.

Many wonderful echoes are known, but the one which takes the first place seems to be that of the old palace of Simonetta, near Milan, which forms three sides of a quadrangle. The report of a pistol is said to be repeated by this echo 60 times, and Addison, who visited the place on a somewhat foggy day, when the air was unfavorable, counted 56 repetitions. At first they were quick, but the intervals were greater in proportion as the sound diminished.

A Corn Plaster.

A medical publication gives the following formula for a corn plaster: Take of purified ammonia and yellow wax, each two ounces; acetate of copper, six drams; melt the two first together over the fire, and after removing from the fire add the verdigris just before it grows cold. Spread the mixture on soft leather or linen, pare away the corn and apply the plaster. Keep it on a fortnight and then renew it.

Changing the Subject.

An original method of closing a conversation was adopted by a host at a dinner party the other day. A young man had turned it to a topic which he did not care to discuss, and angry glances failed to make any impression. "Now, then," said the host at last, "let's change the conversation. 'For what we have received,'" etc.—London Globe.

In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well-known merchant of Forkland, Va. Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

ARE YOU DEAF?

ANY HEAD NOISES?

ALL CASES OF

DEAFNESS OR HARD HEARING ARE NOW CURABLE

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,
